

Abstract Submission Guidelines

Rules for Authors:

- The author submitting the abstract is designated the Submitting Author.
- The Submitting Author indicates the order of authors and identifies the Presenting Author.
- The Presenting Author is the contact person, and is responsible for notifying all co-authors of acceptance, rejection, scheduling, and any other information provided.
- Submission of the abstract is an acknowledgement that the Presenting Author agrees to be available to present the abstract on any day at any given time of the meeting.
- All abstracts submitted must be the work of authors listed. The Presenting Author must provide all financial relationship disclosure information for any relationship with an ACCME defined ineligible company that existed within 24 months prior to the presentation date.
- There is no limit to the number of abstracts submitted by a single group or lab, but an individual cannot be first author (Presenting Author) on more than three abstracts.
- Abstracts *must* contain new and original research. At the time of abstract submission, data should not have been published or accepted for publication.
- Abstracts without actual clinical, neuropathologic, or scientific data will be subject to rejection.
- If a submitter plans to apply for a Travel Award, this must be selected and applicable documents uploaded when submitting the abstract.
- Abstracts may not be revised or resubmitted after the abstract submission deadline.
- Each abstract will be reviewed and approved/denied by the AANP Program Committee.

Copyright Information:

- The Submitting Author certifies the following through the abstract submission site and process:
 - all authors have read and agree with the abstract submitted,
 - the abstract contains new and original research that has not been published or accepted for publication,
 - the first author provides permission for publication of the abstract in the *Journal of Neuropathology and Experimental Neurology* on behalf of all authors,
 - if portions of the work have been published previously, permission from the author(s) and prior publication entity has been secured by the submitter prior to submitting to AANP. A copy of the permission release and copy for credit lines must be submitted to AANP and Oxford University Press (OUP), and
 - if the author/submitter would like to publish the abstract* post-*JNEN* publication, the individual(s) must secure permission from the author(s) and OUP.
- *The abstract cannot be republished without permission; this does not include full paper/article stemming from the *JNEN* published abstract.*

Abstract Preparation:

- Title of Abstract: No longer than 125 characters, punctuation marks (no quotation marks, please), and spaces. Make it simple and factual.
- Body of Abstract: You may enter the text directly or create the abstract in Microsoft Word or comparable software, then copy and paste it here. No graphs, figures or pictures are allowed. THERE IS A MAXIMUM LENGTH OF 300 WORDS.
 - AANP requests that abstracts are clear and concise, and that submitters carefully proofread their abstract prior to submission.
- Topic Category: Choose the single, most appropriate topic category from the drop-down list. Program Committee members will be reviewing all abstracts. Where appropriate, abstracts may be shifted to other topic categories for programming the meeting.
- Preference for Presentation Type: Please indicate a preference for oral versus poster presentation. PLEASE NOTE: due to the limited amount of space on the meeting program for oral presentations, most submitted abstracts will be presented as posters. Author preferences will be considered, but final decisions on the presentation type will be made by Program Committee members following the review of all submitted abstracts.
