

BRIGHAM AND
WOMEN'S HOSPITAL

HARVARD MEDICAL SCHOOL
TEACHING HOSPITAL

**BRIGHAM AND WOMEN'S HOSPITAL
ACADEMIC NEUROPATHOLOGIST
NEURODEGENERATIVE DISEASE PROGRAM**

The Division of Neuropathology in the Department of Pathology at Brigham and Women's Hospital, a principal teaching affiliate of Harvard Medical School, is seeking an academically oriented, MD or MD/PhD, Board-certified Neuropathologist and Researcher, at the Assistant Professor or Associate Professor level, with a focus on neurodegenerative disease as well as skills in general surgical and autopsy neuropathology. Applicants should be committed to excellent patient care, research, scholarship, and effective teaching. Candidates will be expected to lead an independent laboratory-based research program in neurodegenerative diseases. Research in the emerging areas of single cell genomics and precision medicine is preferred but not required. The position will combine clinical duties and academic pursuits (research/teaching) and will be involved in the Longwood Neuropathology Training Program that includes the accredited fellowship program in adult and pediatric surgical and autopsy neuropathology at the Brigham and Women's Hospital, Boston Children's Hospital, and the Dana-Farber Cancer Institute. Candidates would be expected to take advantage of the extensive resources and collaborative interactions within the BWH, Mass General Brigham (MGB), and greater Boston Neurodegenerative Disease Programs which includes the Ann Romney Center for Neurologic Diseases, the Center for Alzheimer Research and Treatment (CART), and the Brigham Health Program for Interdisciplinary Neuroscience. Candidates would have opportunity for interaction with neuroscience initiatives at the Broad Institute of Harvard and MIT, and the Neuroscience Programs of the Harvard Medical School. The position will provide regular integration with the neurodegenerative programs in the Department of Neurology at BWH and collaborate with investigators across programs in the areas of translational neuropathology, biobanking and human research.

Academic rank at the level of Assistant Professor or Associate Professor at Harvard Medical School and salary will be commensurate with experience and accomplishments.

Please send curriculum vitae, names of 3 references and a personal statement to:
